

Compact high brightness laser projector

The ZX300 is a compact XGA DuraCore IP6X laser projector. Designed for maintenance-free continuous operation, it can be installed in virtually any orientation. Its small and lightweight footprint combined with 360-degree and portrait projection enable easy installation.

This feature-packed projector has a built-in speaker and its laser technology delivers up to 30,000 hours of maintenance-free laser light source.

The ZX300 is geared for medium-sized exhibition venues, events, tradeshow or meeting rooms. It maintains excellent image quality as brightness and colour saturation is preserved for longer compared to lamp-based systems.

ZX300
